Crankshaft Polishers

**RMC-36CP
with hand held
polisher**

**RMC-60CPA
with attached polisher**

Dedicated to serving your engine rebuilding equipment needs.

RMC Crankshaft Polisher Stands ...

... stronger ... versatile ... affordable!

RMC Crankshaft Polishers are not only the best choice for crankshaft polishing, they are ideal for polishing armature cores, shafts, gears, slip rings and many other small parts.

RMC offers several different crankshaft polisher stand sizes and configurations. The **RMC-36CP** model is available with or without the hand-held polisher. The **RMC-60CP** is also available with or without a hand-held polisher, or it can be equipped with a permanently attached polisher and arm.

Whatever your crankshaft polishing needs, **RMC** has a model designed for a lifetime of superior crank polishing operation at a price than you can really afford.

Check out the RMC Advantages!
